Cambodia and Laos

3rd – 17th February 2018

Leader: Mike Nelson

Participants: Nick Blackwood, Kit Britton, Michael Duffy, Andrew Herbert, Graham Hogan, Wayne Merritt and David Wilcove

The dry deciduous forests, open grasslands, marshy wetlands and limestone karst of Cambodia and Laos make for some brilliant birding. Some of South-east Asia’s most sought-after rarities reside here like Giant and White-shouldered Ibis, Greater Adjutant, Milky Stork, Bengal Florican, Cambodian Laughingthrush and recently described Bare-faced Bulbul, and these were just a few of the mouthwatering species we encountered on this tour. That combined with the amazing temples of the Angkor Wat complex made for an enjoyable and bird-illed trip. We began at Angkor Wat birding the forests around these amazing temples with Brown Boobook, Asian Barred Owlet, Ashy Minivet, Hainan Blue Flycatcher and White-throated Rock-thrush. We then moved to the huge waterbird sanctuary at Prek Toal highlighted by Milky Stork and Greater Adjutant. The grasslands were our next destination with several male Bengal Floricans before heading north into the dry forests for Giant and White-shouldered Ibis along with White-rumped Falcon and some daytime night-birds with Spotted and Brown Wood Owl, Collared Scops Owl and Brown Fish Owl. Heading east to the mighty Mekong we found the recently described Cambodian Tailorbird, declining Asian Golden Weaver and Mekong Wagtail along with several Irrawaddy Dolphin.

Our camping in the Cardoman Mountains produced spectacular views of endemic Cambodian Laughingthrush and
a surprise pair of Green Cochoa. From here a short flight to Laos saw us at the edge of the Annamite mountains in an area of limestone karst where our main target, Bare-faced Bulbul, was enjoyed along with Sooty Babbler, Green-eared Barbet and Great Iora to name just a few of the great sightings we had. Overall, we had 300 species with 12 heard only with particularly great views of several of the endemics and range-restricted targets.

We began in the stately grounds of the Angkor Wat complex visiting the mighty Hindu temple along with the Buddhist Bayon and Ta Prhom temples, the latter made famous by the tall figs that have grown around the blocks and whose roots still entwine the temple today. Birding here is excellent with forest all around and we picked up day roosting Brown Boobook and Asian Barred Owlet, Pale-legged Leaf Warblers showed in the understory while Alexandrine and Red-breasted Parakeets called from the tops of trees. Common Hill Myna, Ashy Minivets, Lineated and Coppersmith Barbets joined them in the canopy and, in the skies above we found several circling Black Baza and Shikra. The forest floor was home to several Forest Wagtails and the trees surrounding also held Two-barred and Yellow-browed Warbler, Ruby-cheeked Sunbird, White-throated Rock-thrush, Hainan Blue Flycatcher, Taiga Flycatcher and noisy Greater Racket-tailed Drongos.

The following day we visited the marshes along the western edge of Tonle Sap and taking small boats into the reserve allowed us to see the plethora of waterbirds, prime among them were several Greater Adjutants and Milky Storks. The area was also home to many Lesser Adjutant, Painted Storks, Indian, Great and Little Cormorant and good numbers of Oriental Darters. Black-capped and Common Kingfisher poised on branches above the water looking for a meal and several Black-headed Ibis sailed by overhead. We had two excellent raptors with an unexpected Greater Spotted Eagle and a brace of Grey-headed Fish Eagles. When the heat rose huge swarms of circling Spot-billed Pelicans began to loop around in a swirling mass joined by Painted Storks, Asian Openbill and even a few adjutants and darters joined in. A lone Ruddy Kingfisher was added but only fleetingly while over the lake Gull-billed and Whiskered Terns dove for fish. Both Green and Blue-tailed Bee-eaters perched atop tall grasses in search of insects to plunge down upon and a pair of Racket-tailed Treepies played hide and seek but eventually showed.

Greater Adjutant and Bengal Florican

Our next stop was the sprawling grasslands around the lake and our number one target here was Bengal Florican. An afternoon and morning here gave us great views of several flying birds with mostly males taking flight on stark white wings. We found another lovely male on the deck whose black head poked above the grasses and as we continued to watch it moved past an open area for better views. We also had many Eastern Marsh and Pied Harriers coursing over the savanna with a couple of stunning male Pied Harriers showed extremely well. One of the more skulking denizens here is the Manchurian Reed Warbler but sitting through some tall grasses gave us some very good views as the bird hiked up several stalks before dropping down to the next thick patch only to appear again a few meters over. Our walk through here also stirred up several Lanceolated Warblers and even a Small Buttonquail, Pintail Snipe and Common Snipe too. Two huge Sarus Cranes fed in the waist high grass while overhead two large flocks of Comb Ducks numbering twenty and thirty flew-over. A small group of five Oriental Pratincole flushed up from an area of short grass and some pond side birding found Bluethroat, Spotted Redshank, Red Avadavat and Australasian Bush Lark singing away. Always on the lookout for a tasty insect we also encountered several Stejneger’s Stonechat and Pied Bushchat.
The lure of the treasures of the dry northern forest and savannah lay before us so we made our way there picking up a lovely female White-rumped Falcon along the way with her chestnut cap plainly evident. We visited two sites during the following three days and experienced some of South-east Asia’s rarest birds. A dusk vigil gave us a shot at White-winged Duck and as it grew dim we heard it approach and came into its favoured tree but at the last second veered off giving us flight views before continuing into the distance honking all the way. The drive back was more rewarding with eye-level perched views of Oriental Scops Owl.

White-rumped Falcon and Oriental Scops Owl

Owls were indeed a theme here and we had four species in one morning with Spotted and Brown Wood Owl giving us some scoped views as they waited out the heat of the day. The horned appearance of a Brown Fish Owl peering over the top of a broken stump was next and just before lunch we managed to squeeze into the best window of foliage to find a perched Collared Scops Owl tufts raised and doing its best camouflage impression. The night-bird theme continued in the evening with a Spotted Owlet coming to a nest hole and several circling Savanna Nightjars.

Chinese Francolin called continuously at dawn and dusk and we found several perched up, heads cocked back singing away. A nice pair of Chestnut-capped Babblers poked their heads up from the grassy cover below the trees adding to the collection of birds here including Rufous-winged Buzzard, Orange-breasted, Thick-billed and Yellow-footed Green Pigeon, Violet Cuckoo showing very well, Oriental Pied Hornbill, Abbott’s Babbler, Burmese Shrike, Neglected Nuthatch seemingly frozen on a perch above our head, Blossom-headed Parakeet, Small, Scarlet and Swinhoe’s Minivets were all seen well. Both Large and IndoChinese Cuckoo-shrikes were vocal and showed well on a few occasions and a group of five Hair-crested Drongo joined in on the vocal cacophony. Not to be outdone were several groups of White-crested Laughingthrush that would be a vocal match for any group, cackling and carrying on through the canopy. In contrast the sweet song of both Hainan and Tickell’s Blue Flycatchers gave away their locations for us to see, but not to be outdone by White-rumped Shama. Red-billed Blue Magpie and Rufous Treepie added to our list of corvids and Black-collared, Asian Pied and Chestnut-tailed Starlings put in an appearance as well.

Critically Endangered White-shouldered and Giant Ibis are two of the main attractions here and our first afternoon we found a pair of White-shouldered Ibis calling to each other and got some great scope views. Several were also seen in flight as they came in to roost at dusk.

The next morning, we went to where a Giant Ibis was nesting and through the scope we could see the almost fledged chick sitting on the nest while the adult perched on a distant snag before flying off to a chorus of honking calls. Another specialty here is Pale-capped Pigeon and we had three in flight one morning and another below the tree line allowing us to see the contrasting white cap and reddish chest. Van Hasselt’s Sunbird was another nice addition and we had a brilliant male perched up singing in the scope.

This area is also excellent for woodpeckers and we got great views of Grey-capped, Yellow-crowned, Freckle-breasted, Rufous and Black-headed, plus Common and Greater Flameback and Rufous-bellied Woodpecker was especially showy as we enjoyed two birds calling in the same tree at one point.

Another group well represented here are the prinias and these noisy little denizens of the undergrowth and waist high grasses all showed well with good numbers of Brown Prinia along with Grey-breasted, Rufescent, Plain and Yellow-bellied all encountered.
After three days of some very enjoyable birding we continued east to the mighty Mekong River. Its shores are home to Asian Golden Weaver and we found a nice bright male shortly after arriving. The rather skulking Pallas’s Grasshopper Warbler was not so obliging and several attempts were needed to get full views of this avid cryptologist. A small fresh water lake here had some nice marshes which were home to Black-browed Reed Warbler, Black Bittern, Purple Swamphen, White-browed Crane and Dusky Warblers. The following day we were back at the Mekong, this time taking two small boats out onto the placid waters looking for another range-restricted species, the Mekong Wagtail. Only described in 2001 its preferred habitat is on small islands on the River Mekong. Checking through many of these we soon found a lovely pair of these very distinctive birds and some skilful maneuvering by our boat captains allowed us some wonderful views. The area is home to several other species and we also found good numbers of Small Pratincoles, a nice pair of Indian Spot-billed Ducks and some Grey-throated Martin whose numbers are sadly declining. The skies were punctuated by hordes of cormorants with waves of Indian, Great and Little all passing by and fishing around us. One other spectacle here is the small numbers of Irrawaddy Dolphins that make their home here and parking our boats in the gentle flowing waters enabled us to listen out for them blowing as they rose from the murky waters giving away their position so we could see their grey forms breaking the surface. Watching several, we took in these gentle river mammals before returning to shore.

Cambodian Tailorbird and Mekong Wagtail

From the Mekong we continued south to another recently-discovered species, the enigmatic Cambodian Tailorbird. A species that was hidden under many a birders nose on the outskirts of the capital until it was discovered just a few years ago. Resident in some scrubby habitat we soon found a pair with a juvenile coming close to investigate us while an adult called from deeper in the thick bushes. Having picked up this Cambodian endemic it was off south in search of another in the Cardoman Mountains.

Two days camping up in the Cardomans was an exciting proposition, giving us a shot at some of the highland species here and we were rewarded with our efforts the first afternoon with brilliant views of several small groups of the endemic Cambodian Laughingthrushes. Their raucous calls echoed around our camp and during our stay they were very prevalent. Another noisy inhabitant was a pair of Indochinese Green Magpies that circled round us while feeding one morning. Several flocks also contained Moustached Barbet, Long-tailed and Silver-breasted Broadbill, Black-wined Cuckoo-shrike, Swinhoe’s and Scarlet Minivets, some hyperactive Erpornis, singing Blyth’s Shrike-Babbler, loads of Lesser Racket-tailed Drongos, a pair of White-throated Fantails, Mountain, Grey-eyed and Ochraceous Bulbuls, a pair of White-browed Scimitar Babblers did laps around us giving brief glimpses, a Lesser Necklaced Laughingthrush joined the Cambodian Laughingthrushes and showed for a few seconds, a pair of White-tailed Robins were seen well one afternoon, Black-throated Sunbirds and Blue-winged Leafbirds were also flock fixtures. Warblers were also seen in good numbers here with Yellow-browed and Arctic darting about with Kloss’s and Sulphur-bellied Warblers. We also had great views of Blue-bearded Bee-eater perched in the sunlight.

A Collared Owlet joined the fray in the morning but was quickly shooed off by mobbing sunbirds. A nice pair of Orange-breasted Trogons added some color along with garish Banded Kingfishers, with a pair adding azure blues and ochre browns. We also had some views of huge Great and Wreathed Hornbills and a pair of Eurasian Jays were a welcome addition at the start.
A nice surprise came on our return hike from higher up the mountain when we found a pair of Green Cochoa hiding in the canopy of one of the trees next to the trail. The initial movement of them flying in gave them away but typical of cochoas they froze for long periods of time but we located the pair and enjoyed some prolonged views as they moved to another tree across the trail from us.

From the Cardoman Mountains it was back to Phnom Pehn and on to Laos with a direct evening flight. The limestone karst of the Anammit Mountains that border Laos and Vietnam is home to yet another restricted range and only recently described species, the Bare-faced Bulbul. Our first afternoon we were very fortunate as one of the first birds we found were a pair of these mysterious and featherless headed birds. Feeding low in some vines we were able to scope them and then move closer for some great views before they rose higher into their jagged limestone home.

Birding this limestone karst forest can be slow going, with some low density, shy birds due to heavy hunting pressure but the results can be very rewarding. Further birding in the area also garnered us some new birds with Green-eared Barbet, Speckled Piculet, Great Iora, Green-backed Tit, Blyth’s Leaf and Thick-billed Warbler, Streaked Wren-Babbler, Puff-throated Babbler, Purple-naped Spiderhunter and Crimson Sunbird. There were many other bulbuls here as well and we added Stripe-throated, Grey-eyed, Black-crested, Puff-throated, Ashy and Himalayan Black Bulbuls and in some flocks, we also picked up Chestnut-flanked White-eye and a lone Hill Blue Flycatcher. The skies above held Dusky Crag Martin and Nepal House Martin and good numbers of Himalayan Swiftlet. Another denizen of the karstic limestone is the Sooty Babbler and we found good numbers here in several small groups bobbing around in the crevice’s and ravines that are typical of this landscape.

From the eastern mountains we wended our way back to Vientiane for a lovely farewell dinner along the banks of the Mekong River accompanied by a dance troupe celebrating Chinese New Year in full dragon costume and beating drums it made for a memorable finish to a wonderful tour.

**Bird-of-the-tour:**

1. Green Cochoa
2. Bengal Florican
3. Cambodian Laughingthrush
4. Giant Ibis
5. Bare-faced Bulbul

Black-headed Ibis and Asian Openbill

Spot-billed Pelican and Painted Stork

Oriental Darter and Lesser Adjutant
Grey-headed Fish Eagle and Greater Spotted Eagle

Manchurian Reed Warbler and Comb Duck

Brown Wood Owl and Spotted Wood Owl
Burmese Shrike and Black-headed Woodpecker

Rufous-bellied Woodpecker and Violet Cuckoo

Collared Scops Owl and Freckle-breasted Woodpecker
Red-breasted Parakeet and Large Woodshrike

Rufous-winged Buzzard and Neglected Nuthatch

Banded Kingfisher and Small Pratincole
Blue-bearded Bee-eater and Green Cochoa

Long-tailed Broadbill and Silver-breasted Broadbill

Sooty Babbler and Grey-eyed Bulbul
Systematic List

**GALLIFORMES: Phasianidae**
Chinese Francolin  
Francolinus pintadeanus  
Chestnut-headed Partridge  
Arborophila cambodiana  
Red Junglefowl  
Gallus gallus  
Green Peafowl  
Pavo muticus

**ANSERIFORMES: Anatidae**
Lesser Whistling Duck  
Dendrocygna javanica  
Indian Spot-billed Duck  
Anas poecilorhyncha  
White-winged Duck  
Asarcornis scutulata  
Comb Duck  
Sarkidiornis melanotos

**PODICIPEDIFORMES: Podicipedidae**
Little Grebe  
Tachybaptus ruficollis

**PELECANIFORMES: Pelecanidae**
Spot-billed Pelican  
Pelecanus philippensis

**PELECANIFORMES: Phalacrocoracidae**
Indian Cormorant  
Phalacrocorax fuscicollis  
Great Cormorant  
Phalacrocorax carbo  
Little Cormorant  
Phalacrocorax niger  
Oriental Darter  
Anhinga melanogaster

**CICONIIFORMES: Ardeidae**
Grey Heron  
Ardea cinerea  
Purple Heron  
Ardea purpurea  
Eastern Great Egret  
Ardea [albus] modestus  
Intermediate Egret  
Ardea intermedia  
Little Egret  
Egretta garzetta  
Chinese Pond Heron  
Ardeola bacchus  
Eastern Cattle Egret  
Ardea ibis coromandus  
Striated Heron  
Butostrides striata  
Black-crowned Night Heron  
Nycticorax nyticorax  
Yellow Bittern  
Ixobrychus sinensis  
Black Bittern  
Ixobrychus flavicollis

**CICONIIFORMES: Ciconiidae**
Painted Stork  
Mycteria leucocephala  
Milky Stork  
Mycteria cinerea  
Asian Openbill  
Anastomus oscitans  
Woolly-necked Stork  
Ciconia episcopus  
Black-necked Stork  
Ephippiorhynchus asiaticus  
Lesser Adjutant  
Leptoptilos javanicus  
Greater Adjutant  
Leptoptilos dubius

**CICONIIFORMES: Threskiornithidae**
Black-headed Ibis  
Threskiornis melanocephalus  
White-shouldered Ibis  
Pseudibis davisoni  
Giant Ibis  
Pseudibis gigantea
ACCIPITRIFORMES: Accipitridae
Black Baza Aviceda leuphotes
Oriental Honeybuzzard Pernis ptilorhynchus ruficollis
Black-shouldered Kite Elanus caeruleus
Brahminy Kite Haliastur indus
Grey-headed Fish Eagle Ichthyophaga ichthyaetus
Crested Serpent Eagle Spilornis cheela burmanicus
Eastern Marsh Harrier Circus spilonotus
Pied Harrier Circus melanoleucos
Shikra Tachyspiza badius poliopsis
Rufous-winged Buzzard Butastur liventer
Black Eagle Ictinaetus malayensis
Greater Spotted Eagle Clanga clanga

GRUIFORMES: Gruidae
Sarus Crane Grus antigone sharpii

GRUIFORMES: Rallidae
Purple (Black-backed) Swamphen Porphyrio porphyrio indicus
Common Moorhen Gallinula chloropus

GRUIFORMES: Otididae
Bengal Florican Houbaropsis bengalensis

CHARADRIIFORMES: Turnicidae
Small Buttonquail Turnix sylvatica davidi

CHARADRIIFORMES: Glareolidae
Oriental Pratincole Glareola maldivarum
Small Pratincole Glareola lactea

CHARADRIIFORMES: Charadriidae
Red-wattled Lapwing Vanellus indicus
Little Ringed Plover Charadrius dubius jerdoni

CHARADRIIFORMES: Scolopacidae
Pintail Snipe Gallinago stenura
Common Snipe Gallinago gallinago
Spotted Redshank Tringa erythropus
Common Greenshank Tringa nebularia
Wood Sandpiper Tringa glareola
Common Sandpiper Actitis hypoleucos
Temminck’s Stint Calidris temminckii

CHARADRIIFORMES: Laridae
Gull-billed Tern Gelochelidon nilotica affinis
Whiskered Tern Chlidonias hybridus

COLUMBIFORMES: Columbidae
Pale-capped Pigeon Columba punicea
Red Collared Dove Streptopelia tranquebarica
Spotted Dove  
Asian Emerald Dove  
Zebra Dove  
Orange-breasted Green Pigeon  
Thick-billed Green Pigeon  
Yellow-footed Green Pigeon  
Green Imperial Pigeon  
Mountain Imperial Pigeon

**Streptopelia chinensis**
**Chalcophaps indica**
**Geopelia striata**
**Treron bicincta**
**Treron curvirostra**
**Treron phoenicoptera**
**Ducula aenea**

CUCULIFORMES: Cuculidae

Large Hawk Cuckoo  
Indian Cuckoo  
Banded Bay Cuckoo  
 Plaintive Cuckoo  
Violet Cuckoo  
Asian Drongo Cuckoo  
Asian Koel  
Green-billed Malkoha  
Greater Coucal  
Lesser Coucal

**Hierococcyx sparverioides**
**Cuculus micropterus**
**Cacomantis sonnerati**
**Cacomantis merulinus**
**Chrysococcyx xanthurhynchus**
**Surniculus lugubris**
**Eudynamys scolopacea**
**Phaenicophaeus tristis**
**Centropus sinensis**
**Centropus bengalensis**

STRIGIFORMES: Strigidae

Collared Scops Owl  
Oriental Scops Owl  
Mountain Scops Owl  
Brown Fish Owl  
Spotted Wood Owl  
Brown Wood Owl  
Collared Owlet  
Asian Barred Owlet  
Spotted Owlet  
Brown Boobook

**Otus lettia lettia**
**Otus sunia distans**
**Otus spilocephalus**
**Bubo zeylonensis**
**Strix seloputo**
**Strix leptogrammica laotiana**
**Glaucidium brodiei**
**Glaucidium cuculoides deinani**
**Athene brama**
**Ninox scutulata**

CAPRIMULGIFORMES: Caprimulgidae

Large-tailed Nightjar  
Savanna Nightjar

**Caprimulgus macrurus**
**Caprimulgus affinis**

APODIFORMES: Hemiprocnidae

Crested Treeswift

**Hemiprocnus coronata**

APODIFORMES: Apodidae

Himalayan Swiftlet  
 Edible-nest Swiftlet  
Asian Palm Swift

**Aerodramus brevirostris**
**Aerodramus fuciphagus germani**
**Cypsiurus balasiensis**

TROGONIFORMES: Trogonidae

Red-headed Trogon  
Orange-breasted Trogon

**Harpactes erythrocephaeus**
**Harpactes oreskios**

CORACIIFORMES: Coraciidae

'Indochinese' Roller  
Dollarbird

**Coracias [benghalensis] affinis**
**Eurystomus orientalis**
CORACIIFORMES: Halcyonidae

Common Kingfisher                      Alcedo atthis
Stork-billed Kingfisher                Pelargopsis capensis
Banded Kingfisher                      Lacedo pulchella
White-throated Kingfisher              Halcyon smyrnensis
Black-capped Kingfisher                Halcyon pileata
Ruddy Kingfisher                       Halcyon coromanda
Collared Kingfisher                    Todirhamphus chloris armstrongi

CORACIIFORMES: Meropidae

Blue-bearded Bee-eater                 Nyctyornis athertoni
Green Bee-eater                        Merops orientalis ferrugeiceps
Blue-tailed Bee-eater                  Merops philippinus
Chestnut-headed Bee-eater              Merops leschenaulti

CORACIIFORMES: Upupidae

Eurasian Hoopoe                        Upupa epops

CORACIIFORMES: Bucerotidae

Oriental Pied Hornbill                 Anthracoceros albirostris
Great Hornbill                         Buceros bicornis
Wreathed Hornbill                      Aceros undulatus

PICIFORMES: Capitonidae

Lineated Barbet                        Psilopogon lineata hodgsoni
Green-eared Barbet                     Psilopogon faiostricta
Moustached Barbet                     Psilopogon incognita
Blue-eared Barbet                     Psilopogon australis cyanotis
Coppersmith Barbet                    Psilopogon haemacephala indica

PICIFORMES: Picidae

Speckled Piculet                       Picumnus innominatus malayorum
Grey-capped Woodpecker                 Picoides canicapillus delacouri
Freckle-breasted Woodpecker            Dendrocopos [macei] analis
Yellow-crowned Woodpecker              Dendrocopos mahrattensis
Rufous-bellied Woodpecker              Dendrocopos hyperythrus
Rufous Woodpecker                      Celeus brachyurus annamensis
White-bellied Woodpecker               Dryocopus javensis
Laced Woodpecker                       Picus vittatus
Streak-throated Woodpecker             Picus xanthopygaeus
Black-headed Woodpecker                Picus erythropygius
Common Flameback                       Dinopium javanense intermedium
Greater Flameback                      Chrysocolaptes lucidus guttacristatus
Great Slaty Woodpecker                 Mulleripicus pulverulentus

FALCONIFORMES: Falconidae

White-rumped Falcon                    Polihierax insignis
Eurasian Kestrel                        Falco tinnunculus

PSITTACIFORMES: Psittacidae

Alexandrine Parakeet                   Psittacula eupatria
Blossom-headed Parakeet  
Red-breasted Parakeet  
Vernal Hanging Parrot  

**PASSERIFORMES: Eurylaimidae**

Long-tailed Broadbill  
Silver-breasted Broadbill  

**PASSERIFORMES: Pittidae**

Blue Pitta  

**PASSERIFORMES: Tephrodornithidae**

Large Woodshrike  
Common Woodshrike  
Bar-winged Flycatcher-shrike  

**PASSERIFORMES: Aegithinidae**

Common Iora  
Great Iora  

**PASSERIFORMES: Campephagidae**

Large Cuckoo-shrike  
Indo-Chinese Cuckoo-shrike  
Black-winged Cuckoo-shrike  
Swinhoe’s Minivet  
Ashy Minivet  
Small Minivet  
Scarlet Minivet  
Grey-chinned Minivet  

**PASSERIFORMES: Laniidae**

Brown Shrike  
Burmese Shrike  
Grey-backed Shrike  

**PASSERIFORMES: Vireonidae**

Blyth’s Shrike Babbler  
Erpornis  

**PASSERIFORMES: Oriolidae**

Black-naped Oriole  
Black-hooded Oriole  

**PASSERIFORMES: Dicruridae**

Black Drongo  
Ashy Drongo  
Bronzed Drongo  
Lesser Racket-tailed Drongo  
Hair-crested Drongo  
Greater Racket-tailed Drongo  

Psittacula roseata  
Psittacula alexandri  
Loriculus vernalis  
Psarismom dalhousiae  
Serilophus lunatus  
Hydrornis cyanea  
Tephrornis gularis  
Tephrornis pondicerianus  
Hemipus picatus  
Aegithina tiphia  
Aegithina lafresnayei  
Coracina macei  
Lalage polioptera  
Lalage melaschistos  
Pericrocotus cantonensis  
Pericrocotus divaricatus  
Pericrocotus cinnamomeus  
Pericrocotus speciosus  
Pericrocotus solaris deignani  
Lanius cristatus  
Lanius collurioiides nigricapillus  
Lanius tephronotus  
Pteruthius aeralatus ricketi  
Erpornis zantholeuca  
Oriolus chinensis diffusus  
Oriolus xanthornus  
Dicrurus macrocercus thai  
Dicrurus leucophaeus bondi  
Dicrurus leucophaeus leucogenis  
Dicrurus aeneus  
Dicrurus remifer  
Dicrurus hottentottus hottentottus  
Dicrurus paradiseus
**PASSERIFORMES: Rhipiduridae**
- White-throated Fantail *Rhipidura albicollis*
- White-browed Fantail *Rhipidura aureola*

Hume's White-eye  
Zosterops auriventer

**PASSERIFORMES: Irenidae**

Asian Fairy Bluebird  
Irena puella

**PASSERIFORMES: Sittidae**

Chestnut-bellied Nuthatch  
Sitta castanea tonkinensis

Velvet-fronted Nuthatch  
Sitta frontalis

**PASSERIFORMES: Sturnidae**

Hill Myna  
Gracula religiosa

White-vented Myna  
Acridotheres grandis

Common Myna  
Acridotheres tristis

Black-collared Starling  
Gracupica nigrigollis

Asian Pied Starling  
Gracupica contra

Chestnut-tailed Starling  
Sturnia malabarica nemoricola

**PASSERIFORMES: Turdidae**

Green Cochoa  
Cochoa viridis

**PASSERIFORMES: Muscicapidae**

Asian Brown Flycatcher  
Muscicapa dauurica

Taiga Flycatcher  
Ficedula albicilla

Verditer Warbling-flycatcher  
Eumyias thalassina

Hainan Blue Flycatcher  
Cyornis hainanus

Hill Blue Flycatcher  
Cyornis banyumas whitei

Tickell's Blue Flycatcher  
Cyornis [tickelliae] indochina

Bluethroat  
Luscinia svecica

Oriental Magpie Robin  
Copsychus saularis musicus

White-rumped Shama  
Copsychus malabaricus

White-tailed Robin  
Myiomela leucura cambodiana

Stejneger's Stonechat  
Saxicola stejnegeri

Pied Bushchat  
Saxicola caprata

Grey Bushchat  
Saxicola ferrea

White-throated Rock-thrush  
Monticola gularis

Blue Rock-thrush  
Monticola solitarius pandoo

**PASSERIFORMES: Chloropseidae**

Blue-winged Leafbird  
Chloropsis c. cochinchinensis

Golden-fronted Leafbird  
Chloropsis aurifrons inornata

**PASSERIFORMES: Dicaeidae**

Modest [Thick-billed] Flowerpecker  
Pachyglossa [agile] modesta

Fire-breasted Flowerpecker  
Dicaeum ignipectus  
heard only

**PASSERIFORMES: Nectariniidae**

Brown-throated Sunbird  
Anthreptes malacensis

Van Hasselt's Sunbird  
Leptocoma brasiliana

Purple Sunbird  
Cinnyris asiaticus

Olive-backed (Ornate) Sunbird  
Cinnyris jugularis flammaxillaris

Ruby-cheeked Sunbird  
Aethopyga singalensis koratensis

Black-throated Sunbird  
Aethopyga saturata ochra
Crimson Sunbird
Purple-naped Spiderhunter
Little Spiderhunter
