Sarawak, Borneo

9th – 15th October 2017

Leader: Yeo Siew Teck

Participants: John Clark & Mary Ward-Jackson
and Ron Hoff & Dollyann Myers.

This was a clean-up trip to Sarawak, the lesser known-half of East Malaysia. In addition to several Sarawak specialities there were also some species missed on previous visits to Sabah which are quite possible in Sarawak. We hit most of the specialities including Black Oriole, both Bornean and Dulit Frogmouth, Whitehead’s Spiderhunter, Hose’s Broadbill, Blue-banded Pitta, a wonderful displaying Rail-babbler and even a couple of surprises like a wonderful displaying Rail-babbler and several Jambu Fruit Dove, before finishing off in the lowlands with and Hook-billed Bulbul, Scarlet-breasted Flowerpecker and Red-crowned Barbet.

After a late morning arrival into Kota Kinabalu, we headed straight towards the Sarawak border. An area of peat-swamp forest was our afternoon haunt, which started with a migrant Chestnut-winged Cuckoo flashing across the trail. With overcast conditions it was a humid afternoon but the usual bits-and-pieces present here appeared - a pair of Black-and-yellow Broadbill started to sing for us, a pair of Lesser Cicadabird, female Raffles’s Malkoha, Greater Green Leafbird, Velvet-fronted Nuthatch and Green Iora were foraging on tree tops, Rufous Piculet, Buff-rumped Woodpecker, Banded Woodpecker and Buff-necked Woodpecker were busy on pecking and calling, common birds like Blue-eared Barbet, Chestnut-winged Babbler, Orange-billed Flowerpecker, Ashy Tailorbird and Little Spiderhunter were seen but no sign for our target birds until we were just about to leave for our next destination when a pair of Hook-billed Bulbul flew across the trail and were
Jambu Fruit Dove visiting the fruiting tree, appeared silently near to a fruiting tree but Verditer Blyth's Hawk Eagle, Crested Serpent Eagle and Black Bornean Banded Pitta, Hose's Broadbill and Bornean Barbet emanating from the dark undergrowth. After a couple hours hiking we were taking a break on one of the wooden bridge when suddenly 2 pairs of Crested Partridges emerged unexpectedly from forest floor, crossed a stream from one side to the other side and gave us a nice, unexpected view. We continued our journey and as soon as we arrived at the higher elevation 3 Black Orioles were active in the nearby canopy. After achieving our main targets, we decided to enter the forest for the Hose's Broadbill and pittas, a pair of Red-naped Trogon showed closely to welcome us and later a single Mountain Barbet was foraging above us. After an hour search none of the broadbills and pittas were active, but just as we exited the forest a male Hose's Broadbill was seen briefly, it appeared too close to us and flew away after we made some minor movement, with only Ron getting a view. It was raining after lunch so we decided to descend slowly in the rain, it stopped before the dusk so we decided to attempt to find Bornean Frogmouth, though with tired and wet legs the enthusiasm was not quite there, despite hearing one inside the forest without budging, when, just at the final moment it gave up the ghost, emerging on an open branch for everyone to have an excellent view – a fitting finale to a great day.

With a change in itinerary due to the almost unpassable condition of the road (thanks to our tour here the previous week, we were able to make this contingency plan), we had just a single day at Paya Maga, a site we usually camp at for a couple of nights. It was a pleasant walk up this old logging track, fine weather brought the birds out in force – our first endemic targets were soon under the belt - Bornean Leafbird, Bornean Bulbuls, Pygmy Heleia (White-eye), while more widespread species included Raffle's and Chestnut-breasted Malkoha, Whiskered Treeswift, Crested Serpent Eagle, Black-winged Flycatcher-shrike, Ochraceous Bulbul (split in two references now as an endemic species – Penan Bulbul), Maroon-breasted Philentoma, 'Sunda' Ashy Drongo, several Little Cuckoo Doves, Cinereous Bulbul, Spectacled Bulbul and Asian Fairy Bluebird. After a change in itinerary due to the almost unpassable condition of the road (thanks to our tour here the previous week, we were able to make this contingency plan), we had just a single day at Paya Maga, a site we usually camp at for a couple of nights. Flying into the heart of the Kelabit Highlands the following morning, the view was spectacular, with a horizon of continuous forest but with sadly logging activities scarring most of it. After lunch at our lovely, homely guesthouse we set out for roadside birding; Blyth's Hawk Eagle, Black-thighed Falconet, Mountain Barbet, Chestnut-hooded Laughingthrush, Bornean Treepie, Wreathed Hornbill, Black-and-crimson Oriole and Scarlet Minivet were all enjoyed, but it was one of the main targets - Whitehead's Spiderhunter sitting on an open branch, singing away, that got our hearts racing. Next up was hearing the quiet, monotone whistle of a Blue-banded Pitta emanating from the dark undergrowth. After a few minutes wait, it landed on an open branch in full view for us with its brightly red plumage and lovely bluish necklace glimmering through the darkness. After a successful afternoon we waited for the dusk to arrive and aim for another big target, Dulit Frogmouth, again we were lucky enough to have it showed off in open branch with a fantastic clear view.

We then had two full days birding the same area, with four specific targets in mind - Mountain Serpent Eagle, Bornean Banded Pitta, Hose's Broadbill and Bornean Barbet. After just hearing the Bornean Banded Pitta in the early morning, as the sun heated things up, a Mountain Serpent Eagle circled closely above us and also Blyth's Hawk Eagle, Crested Serpent Eagle and Black-thighed Falconet were seen again. Before ended the morning session we had the Bornean Barbet in the scope and also picked up Brown Fulvetta, Spotted Fantail, Verditer Warbling-flycatcher and Temminck's Sunbird. In the afternoon we decided to go for the Hose's Broadbill, luckily finding a fruiting tree by the road side, and after a short wait a pair of Hose's Broadbills appeared silently near to a fruiting tree but again they flew away and disappeared into the forest before everyone managed a clear view, though the disappointment was short-lived as we were rewarded by a few Jambu Fruit Dove visiting the fruiting tree, and a white morph male Blyth's Paradise-flycatcher.
Returning for the pitta and broadbill on our final day, we came back empty-handed. However, a real bonus was an unexpected Rail-babbler that was calling while we were waiting for the pitta, it emerged from the dense forest floor and walking back and forth on a big fallen log like it was doing a fashion show, stopping, leaning forward and flashing its blue balloons. The morning ended with a group of Black-throated Wren-babbler which were skulking in the bush but showed off few times for everyone. Afternoon we decided to go back the same site where we heard the Bornean Banded Pitta, lucky enough, for Mary anyway, the female finally emerged on the forest floor, hopping toward us slowly and later hopping away after we had a short view.

**Dulit Frogmouth and Jambu Fruit Dove © John Clark**

We still had a couple of hours birding available before our flight, so obviously we returned for the broadbill, finally finding an individual calling close-by and after a tense wait, it flew closely towards us before dashing away the moment we all moved to get a better view! Bornean Spiderhunter, Black Hornbill and Gold-whiskered Barbet concluded our enjoyable time in the Kelabit Highlands tour, and we flew back to the hot and humid coast.

We returned to the peat-swamp forest for our remaining targets, those missed on the first afternoon. It was a great success as our heads turned to the canopy as the unmistakable calls of Scarlet-breasted Flowerpecker distracted us, where a pair were located, eventually descending lower to feed in a fruiting tree. Before we ended the tour, a group of noisy Hook-billed Bulbuls were seen and while walking out from the forest we picked up the Red-bellied Malkoha, Thick-billed Green Pigeon, Long-tailed Parakeet, Maroon Woodpecker, a group of Rufous Woodpecker and also one, final target bird – Chestnut-bellied Malkoha. Having a most successful tour we headed back to Kota Kinabalu for a nice farewell dinner.

# Systematic List

**ANSERIFORMES: Anatidae**
- Wandering Whistling Duck *Dendrocygna arcuata*

**GALLIFORMES: Phasianidae**
- Great Argus *Argusianus argus*  
- Red-breasted Partridge *Arborophila hyperythra*  
- Crested Partridge *Rollulus rouloul* (Heard only)

**COLUMBIFORMES: Columbidae**
- Spotted Dove *Streptopelia chinensis*
- Philippine/Ruddy Cuckoo Dove *Macropygia tenuirostris borneensis*  
- Little Cuckoo Dove *Macropygia ruficeps nana*  
- Asian Emerald Dove *Chalcophaps indica indica*  
- Zebra Dove *Geopelia striata*  
- Pink-necked Green Pigeon *Treron vernans*  
- Thick-billed Green Pigeon *Treron curvirostra*  
- Jambu Fruit Dove *Ptilinopus jambu*  
- Mountain Imperial Pigeon *Ducula badia*

**CUCULIFORMES: Cuculidae**
- Chestnut-winged Cuckoo *Clamator coromandus*  
- Bock’s/Dark Hawk Cuckoo *Hierococcyx [sparverioides] bocki*  
- Indian Cuckoo *Cuculus micropterus*  
- Banded Bay Cuckoo *Cacomantis sonneratii*  
- Plaintive Cuckoo *Cacomantis merulinus*  
- Rusty-breasted Cuckoo *Cacomantis variolosus*  
- Asian Drongo Cuckoo *Surniculus lugubris brachyurus*  
- Raffles’s Malkoha *Rhinortha chlorophaeus*  
- Black-bellied Malkoha *Phaenicophaeus diardi*  
- Chestnut-bellied Malkoha *Phaenicophaeus sumatranus*  
- Red-billed Malkoha *Phaenicophaeus javanicus*  
- Chestnut-breasted Malkoha *Phaenicophaeus curvirostris*  
- Greater Coucal *Centropus sinensis bubutus*  
- Lesser Coucal *Centropus bengalensis javanensis*
**APODIFORMES: Hemiprocnidae**
- Grey-rumped Treeswift: Hemiprocne longipennis harterti
- Whiskered Treeswift: Hemiprocne comata comata

**APODIFORMES: Apodidae**
- Glossy Swiftlet: Collocalia esculenta cyanoptila
- Asian Palm Swift: Cypsiurus balasiensis

**CAPRIMULGIFORMES: Podargidae**
- Dulit Frogmouth: Batrachostomus harterti e
- Bornean Frogmouth: Batrachostomus mixtus e

**CAPRIMULGIFORMES: Caprimulgidae**
- Malaysian Eared Nightjar: Lyncornis temminckii Heard only

**GRUIFORMES: Rallidae**
- White-breasted Waterhen: Amaurornis phoenicurus

**PELECANIFORMES: Anhingidae**
- Oriental Darter: Anhinga melanogaster

**CICONIIFORMES: Ardeidae**
- Purple Heron: Ardea purpurea
- Eastern Great Egret: Ardea modestus
- Little Egret: Egretta garzetta
- Eastern Cattle Egret: Ardea coromandus
- Striated Heron: Butorides striata
- Cinnamon Bittern: Ixobrychus cinnamomeus

**ACCIPITRIFORMES: Accipitridae**
- Brahminy Kite: Haliastur indus
- Mountain Serpent Eagle: Spilornis kinabaluensis e
- Crested Serpent Eagle: Spilornis cheela
- Blyth’s Hawk Eagle: Nisaetus alboniger

**STRIGIFORMES: Strigidae**
- Barred Eagle Owl: Bubo sumatranus
- Brown Boobook: Ninox scutulata
- 'Sunda' Collared Owlet: Glaucidium [brodiei] borneense Heard only

**TROGONIFORMES: Trogonidae**
- Red-naped Trogon: Harpactes kasumba impavidus
- Scarlet-rumped Trogon: Harpactes duvaucelii Heard only
- Orange-breasted Trogon: Harpactes oreskios dulitensis Heard only

**CORACIIFORMES: Bucerotidae**
- Black Hornbill: Anthracoceros malayanus
- Rhinoceros Hornbill: Buceros rhinoceros borneoensis Heard only
- Helmeted Hornbill: Rhinoplax vigil Heard only
- Bushy-crested Hornbill: Anorrhinus galeritus
- Wreathed Hornbill: Rhyticeros undulatus

**PICIFORMES: Capitonidae**
- Gold-whiskered Barbet: Psilopogon chrysopogon chrysopsi
- Red-throated Barbet: Psilopogon mystacophanos
Mountain Barbet: *Psilopogon monticola*  
Golden-naped Barbet: *Psilopogon pulcherrima* (Heard only)  
Blue-eared Barbet: *Psilopogon australis duvaucelii*  
Bornean Barbet: *Psilopogon eximia*  

**PICIFORMES: Picidae**  
Rufous Piculet: *Sasia abnormis*  
Rufous Woodpecker: *Celeus brachyurus badius*  
White-bellied Woodpecker: *Dryocopus javensis javensis*  
Banded Yellownape: *Chrysophlegma mineaceus malaccensis*  
Crimson-winged Woodpecker: *Picus punicus observandus*  
Maroon Woodpecker: *Blythipicus rubiginosus*  
Buff-necked Woodpecker: *Meiglyptes tukki tukki*  

**CORACIIFORMES: Alcedinidae**  
Rufous-backed Kingfisher: *Ceyx rufidorsa motleyi* (Heard only)  

**CORACIIFORMES: Meropidae**  
Red-bearded Bee-eater: *Nyctyornis amictus* (Heard only)  

**FALCONIFORMES: Falconidae**  
Black-thighed Falconet: *Microhierax fringillarius*  

**PSITTACIFORMES: Psittacidae**  
Long-tailed Parakeet: *Psittacula longicauda*  

**PASSERIFORMES: Calyptomenidae**  
Green Broadbill: *Calyptomena viridis*  
Hose’s Broadbill: *Calyptomena hosii* (Heard only)  

**PASSERIFORMES: Eurylaimidae**  
Black-and-red Broadbill: *Cymbirhynchus macrorhynchos* (Heard only)  
Banded Broadbill: *Eurylaimus javanicus* (Heard only)  
Black-and-yellow Broadbill: *Eurylaimus ochromalus*  

**PASSERIFORMES: Pittidae**  
Bornean Banded Pitta: *Hydrornis schwaneri* (Heard only)  
Blue-banded Pitta: *Erythropitta arquata* (Heard only)  

**PASSERIFORMES: Pardalotidae**  
Golden-bellied Gerygone: *Gerygone sulphurea sulphurea* (Heard only)  

**PASSERIFORMES: Vireonidae**  
Blyth’s Shrike Babbler: *Pteruthius aeralatus robinsoni* (Heard only)  

**PASSERIFORMES: Oriolidae**  
Black Oriole: *Oriolus hosii* (Heard only)  
Black-and-crimson Oriole: *Oriolus cruentus vulneratus*  

**PASSERIFORMES: Pachycephalidae**  
Bornean Whistler: *Pachycephala hypoxantha* (Heard only)  

**PASSERIFORMES: Vangidae**  
Black-winged Flycatcher-shrike: *Hemipus hirundinaceus*  
Maroon-breasted Philentoma: *Philentoma velatum*
PASSERIFORMES: Aegithinidae
Green Iora            Aegithina viridissima

PASSERIFORMES: Artamidae
White-breasted Woodswallow Artamus leucorynchus

PASSERIFORMES: Campephagidae
Lesser Cicadabird       Lalage fimbriata schierbrandii
Scarlet Minivet          Pericrocotus speciosus insulanus

PASSERIFORMES: Rhipiduridae
Pied Fantail            Rhipidura javanica
Spotted Fantail          Rhipidura perlata

PASSERIFORMES: Dicruridae
Sunda [Ashy] Dongo   Dicrurus leucophaeus stigmatops
Hair-crested Dongo    Dicrurus [hottentottus] borneensis
Greater Racket-tailed Dongo Dicrurus paradiseus brachyphorus

PASSERIFORMES: Monarchidae
Black-naped Monarch     Hypothymis azurea prophata
Blyth’s Paradise Flycatcher Terpsiphone affinis borneensis

PASSERIFORMES: Laniidae
Crested Jay / Jay Shrike Platylophus galericulatus coronatus   Heard only

PASSERIFORMES: Corvidae
Bornean Treepie        Dendrocitta cinerascens   e

PASSERIFORMES: Eupetidae
Rail-babbler            Eupetes macrocerus

PASSERIFORMES: Stenostiridae
Grey-headed Canary-flycatcher Culicicapa ceylonensis

PASSERIFORMES: Hirundinidae
Pacific Swallow   Hirundo tahitica

PASSERIFORMES: Pycnonotidae
Straw-headed Bulbul       Pycnonotus zeylanicus   Heard only
Black-headed Bulbul          Pycnonotus atriceps atriceps
Bornean Bulbul            Pycnonotus montis   e
Scaly-breasted Bulbul       Pycnonotus squamatus borneensis
Yellow-vented Bulbul       Pycnonotus golaiver gourdini
Olive-winged Bulbul        Pycnonotus plumosus plumosus   Heard only
Red-eyed Bulbul             Pycnonotus bruneus bruneus
Spectacled Bulbul          Pycnonotus erythropthalmos
Ochraceous (Penan) Bulbul   Aellophoxus ochraceus ruficrissus
Grey-cheeked Bulbul         Aellophoxus bres gutturalis   Heard only
Cinereous Bulbul            Hemixos cinereus connectens
Hook-billed Bulbul          Setornis criniger

PASSERIFORMES: Timaliidae
Bold-striped Tit Babbler   Mixornis (gularis) bornensis   Heard only
### Fluffy-backed Tit Babbler
*Macronous ptilosus reclusus*  
Heard only

### Chestnut-winged Babbler
*Cyanoderma erythropygum bicolor*  
Heard only

### Rufous-fronted Babbler
*Cyanoderma rufifrons sarawakensis*  
Heard only

### Chestnut-backed Scimitar Babbler
*Pomatorhinus montanus bornensis*  
Heard only

### Grey-throated Babbler
*Stachyris nigriceps borneensis*  
Heard only

### Grey-headed Babbler
*Stachyris poliocephala*  
Heard only

### Chestnut-rumped Babbler
*Stachyris maculata maculata*  
Heard only

### PASSERIFORMES: Pellorneidae
